## **FOUNDATION PARTNERS WITH JEFFERSON DAVIS COUNTY SCHOOL DISTRICT FOR CAPITAL FUNDRAISING CAMPAIGN**

March 24, 2013 – Jackson, MS - The We Make It Better Foundation is pleased to announce its partnership with the Jefferson Davis County School District in the launching of its Capital Fundraiser Campaign this spring. The purpose of this Capital Fundraiser Campaign is to provide the Jefferson Davis County School District with an effective means for raising funds to further enhance the education of their students. This will also have a positive financial impact on the community and the school district.

“We are sure that this fundraiser will be a great success and will help raise needed funds to help expand the vision that District Superintendent Ike Haynes has for the Jefferson Davis County School District,” says Bishop Ronnie C. Crudup, Sr., founder and CEO of the We Make It Better Foundation. “Our efforts will bring tremendous hope to the community as we raise monies to purchase more technology to help in academics, as well as to aid in the purchasing of other needed items such as sports and band uniforms.”

The We Make It Better Foundation is a movement to create expanding and sustainable transformation in Mississippi communities. We accomplish this through philanthropy and activism. Our goal is to mobilize greater charitable giving and community service in the hearts and minds of urban and rural residents. By doing so, we will create the atmosphere and activities which become the change that’s needed. For additional information please contact Stacia V. Hunter, Executive Director 601.371.1427, Ext. 314.
